A long term partnership between Zimbabwe's fastest-growing security company, Blackshark Protection Services and Uniview Technologies, a Chinese security equipment manufacturer has played a vital role in enhancing service provision in Zimbabwe.

Under the partnership, which was entered by the two parties in 2018, the Chinese firm supplies the latest security monitoring gadgets to improve service delivery in Zimbabwe.

Security issues have become complex. And the latest technologies have played a significant role in enhancing Blackshark's service provision in the country, leaving clients with peace of mind and be

able concentrate fully on their core mandates.

The partnership has over the last few years seen BPS, which is a SHEQ ISO Certified integrated security solutions provider and industry pace-setter in protection innovation, becoming the security services provider of choice.

Excellence in service delivery and implementation are fundamental to our impressive track record. Blackshark remain a pace-setter in the protection services industry and shall continue to lead the way for a safer and protected Zimbabwe through our bouquet of services and related product, the company said.

The partnership means stocks are readily available. These include Closed Circuit Television System, alarms and panic buttons.

Blackshark, Chinese firm strengthen partnership

A long term partnership between Blackshark Protection Services and Uniview Technologies, a Chinese security equipment manufacturer has played a vital role in enhancing service provision in Zimbabwe.

What defines Blackshark

We are very young but big at heart. We have learnt from what others have done in the past; have spoken to our customers to establish their needs and have tailor-made our products to suit their unique needs.

We are up to speed in terms of developments in the Security sector and we also benchmark ourselves against global leading security companies. This explains why the Company has made significant growth across all sectors of the Zimbabwean economy over the years.

We have operations throughout the country with branches in Harare, Bulawayo, Mutare, Gweru and Kadoma. Blackshark has an efficient and technology-based supervision

infrastructure in place to ensure that clients get quality services and value for their money.

The supervisory system includes a fully equipped 24-hour manned control room, two-way communication radios and guard monitoring units. Our Protection Assistants are well trained, well vetted and constantly evaluated and monitored to ensure provision of Industry leading service levels.

Blackshark boasts of cutting-edge electronic products that cater for homes, Industrial premises, mines, schools and Commercial properties. Our Electronics Team works round the clock to make sure our clients' systems remain connected

Blackshark saves the day

On 23/06/20 at 2300 hours a report was received from PA Life Zimburani who was manning a mine at night to the effect that 8 gold panners had paid US \$300 to loader-driver (who was the mine's employee) to approach the duty PA to allow the gold panners to steal gold ore at his guarding point.

The PA on duty tipped off PO S Chipunga on the subject matter. PO Chipunga advised the PA to admit and let them do the act whilst organizing a reaction team to get to the scene to effect an arrest. As the PA was assured to admit to the demand of the thieves intending to trap them he was asked to keep giving updated events of the acts. The detail received \$150 from the loader driver as package for them to be allowed to steal gold ore and asked them to enter the premises whilst PO Chipunga was closing the

escape route of the accused persons.

After surrounding the site, a fire arm was shot in the air demanding everyone to sit down together with the duty PA who pretended to be taking part in the connivance. From the 8 reprimanded, two tried to run away but they found that all escape routes were closed by reaction team members who arrested them before they made off.

The reaction team arrested 8 gold panners and a loader driver who was on duty and had led the gold panners into the mine to steal gold ore heaped for crushing. The team recovered 6x 50 kg of gold ore, 2x 50kg empty bags, 4x4 pounds hammers and 4 chisels at the scene.

The accused persons were taken to the nearest ZRP station

The matter was reported to the mine and Blackshark Protection Services management.

Crime doesn't stop because you are home

Stay protected during lockdown

Should you require our security services during this period; Call us or WhatsApp on 0718217827 which is available 24/7

Supermarkets / Retail loss prevention systems

Whether you call it shoplifting, shrinkage, stock loss the fact is it hits your bottom line. Tabulated below is information on how Blackshark Protection Services managed to curtail crime in wholesalers/retailers where it is offering Protection services and its clients have experienced significant reduction in shrinkage when compared to those wholesalers/retailers which are yet to engage it.

Theft, recovery of Biscuits

Blackshark renowned female Protection Assistant Virginia Sibanda premeditated suspicious movements by an employee who was attached to Hygiene and housekeeping section. The culprit also calculated and foolishly undermined PAs existence of the alert PA who arrested him instantly for stealing 1 x 500g Plain Biscuits using mix-with-trash modus operandi. Refers. Shop Manager appreciated the arrest.

Suspicious movement observation

12.07.2020@1441hrs

Shop cleaner was seen at till point and he generated a receipt. The till operator had gone for lunch. He collected items in the shop and took the products to the dispatching door where he was then checked by Blackshark PA Virginia Sibanda who detected an extra of goods valued at \$771.13 RTGS.

Theft of cash from till drawer

Till operator (name withheld) was noticed by ever alert Protection Sgt Thomas Kubvoruno stealing RTGS 2 from till drawer. He was interrogated and failed to give a satisfactory answer leading to his arrest. Matter was referred to shop.

Applied, working different strategies:-

- Independent random 2nd/3rd checks of customer goods upon loading after initial check point.
- Ensuring scrutiny of invoices is done with the Blackshark Protection representative holding the invoice.

- Random opening of sealed boxes and strict checking of resealed boxes.
- Searching of customers' parcels/bags upon exiting the shop.
- Visual Tracking and Investigating of all generated reprints/credit notes.
